START DAGEN MED ET SMILENDE ÆG

Hos McDonald's bruger vi danske økologiske æg i vores McMuffins. Æggene kommer fra høns, som går frit mellem frugtplantagens træer og spiser nedfaldne æbler og insekter. Forskning viser, at hønsene bliver trygge og får en bedre livskvalitet af at gå i nærheden af træer, som de kan søge tilflugt under.

Vi er glade for at vide, at hønsene har levet under gode forhold. Og at æggene derfor nok ville smile, hvis de kunne.

Hvis du vil vide mere om vores råvarer, kan du altid gå ind på tjekmcdonalds.dk

experienced the laughter,
Quality Puppets.

The McDonald's Camp Quality Puppets present an inspiring, interactive and educational program using life size puppets to deliver fun and positive messages about children living with cancer.

The show features three mischievous puppets, Kylie, Melissa and Dean who spread their messages of optimism, anti bullying and fun therapy to children across Australia. Therefore increasing awareness and support of others who for a time, may look a little different.

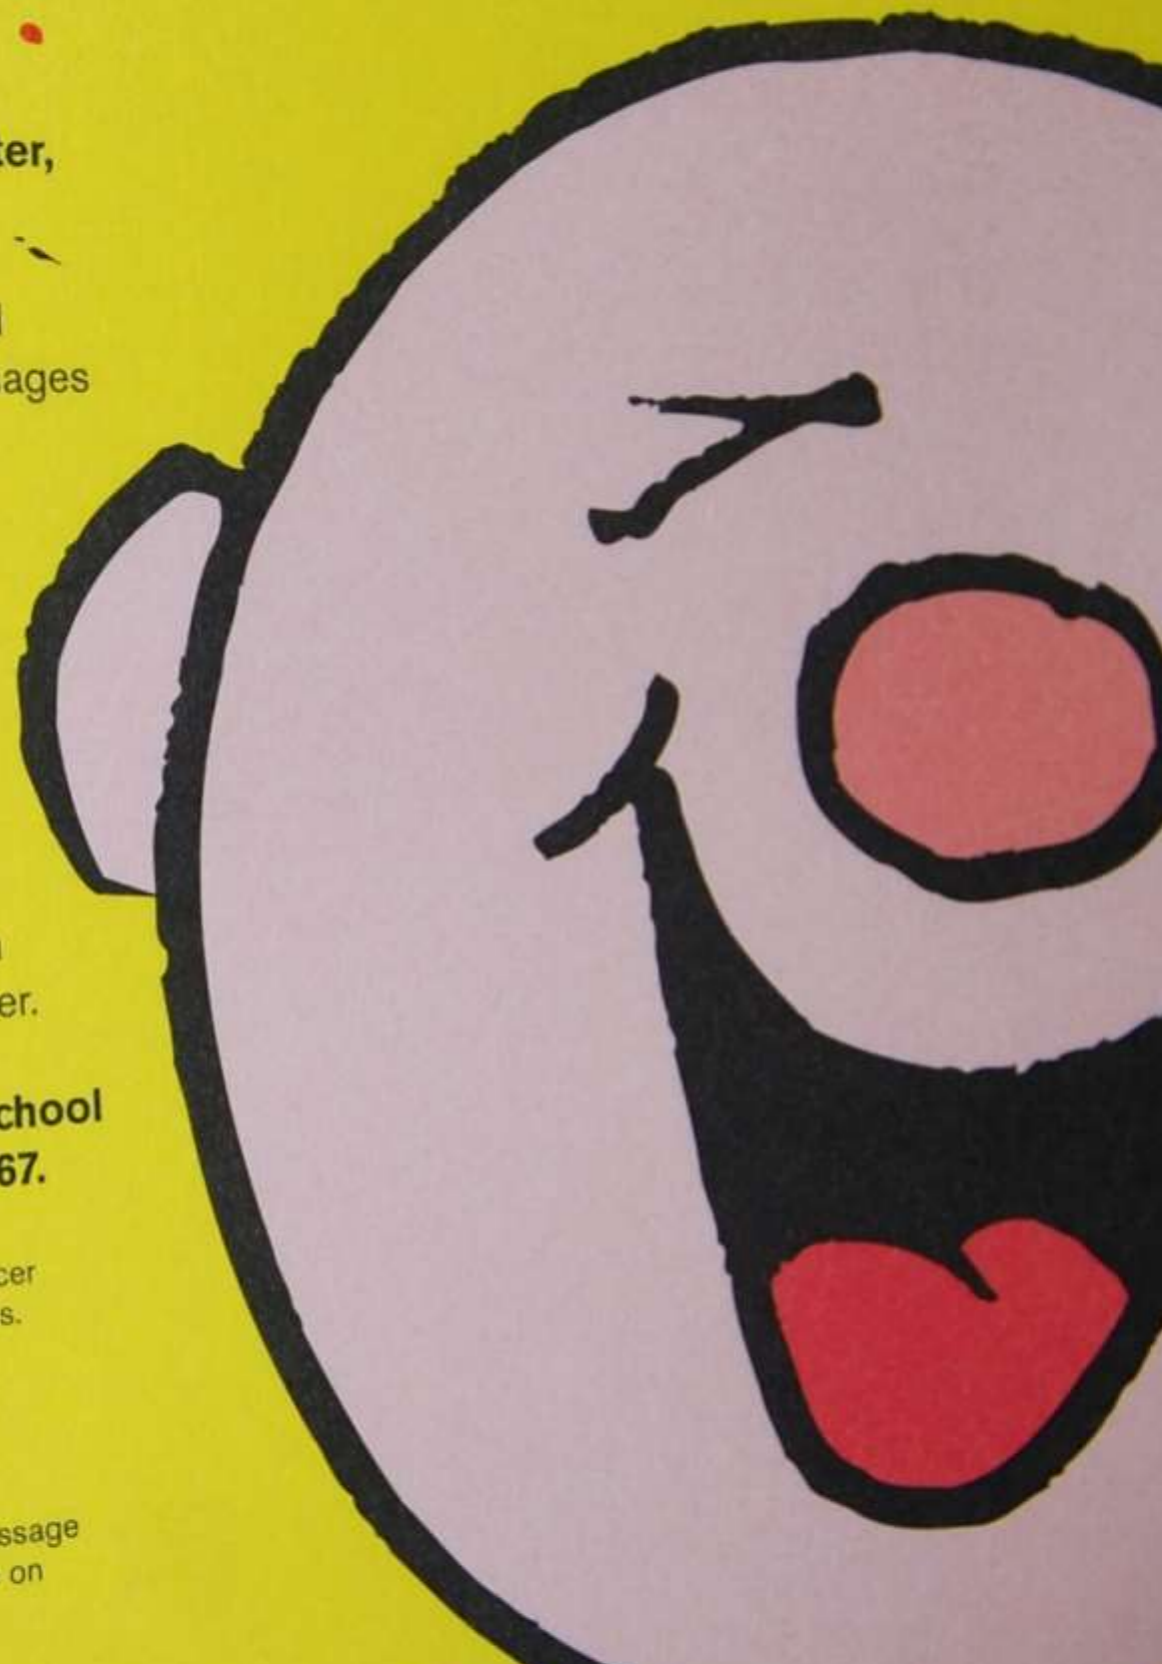

The McDonald's Camp Quality Puppet Program has been proudly supported by McDonald's since 1989, enabling millions of children the opportunity to attend the performances free of charge. This program is an invaluable educational tool for primary school children to learn about cancer.
