Ch. 6

- Language as a foundation of culture
- Language
  - Language families
  - Dialects
  - Divergence
  - Convergence
- Diffusion of Language
- Linguistic Diversity
- Roots of Language
- Disappearance of Language
  - Endangered, extinct
- Spatial Interactions
  - Lingua Franca, Pidgin, Creole

- A system of **communication** through speech, a collection of **sounds** that a group of people understands to have the same **meaning**.
- Many **countries** designate at least one **official language** to be used for official documents & public objects - i.e. road signs & money.
- Organized into:
  - **Families** - collection related through common ancestral language
  - Branches - **collection** within a family.
  - **Groups** - collection within a branch that share common origin in the relatively recent past. Display **similar** grammar & vocabulary

# 10 Most Spoken Languages

Languages are created for human beings to communicate with each others. There are 193 countries in the United Nations. However, we never know how many languages there are in the world.

Sources: 1. <http://geography.about.com/cs/countries/a/numbercountries.htm> 2. <http://listverse.com/2008/06/26/top-10-most-spoken-languages-in-the-world/>

# World's Leading Languages

About 50% of the planet speaks one of 12 out of the estimated 6000 languages worldwide

**TABLE 7-1 The World's Leading Languages and the Number of Speakers of Each (in millions)**

Language	Native speakers	Total speakers
Mandarin	885	1,075
Hindi	375	496
Spanish	358	425
English	350	514
Arabic	211	256
Bengali	210	215
Portuguese	178	194
Russian	165	275
Japanese	125	126
German	100	128
French	77	129
Malay-Indonesian	58	176

*Note:* A native speaker is one for whom the language is his or her first language.

# Geographer's Perspective on Language

- Language is an essential element of culture, possibly the most important medium by which culture is transmitted.
- Languages even structure the perceptions of their speakers. Attitudes, understandings, and responses are partly determined by the words available.
- Languages are a hallmark of cultural diversity with distinctive regional distributions.

# Language and Perception - Eskimo

## Inuit - 10 Words or more Words for Snow

'ice' sikko

'bare ice' tingenek

'snow (in general)' aput

'snow (like salt)' pukak

'soft deep snow' mauja

'snowdrift' tipvigut

'soft snow' massak

'watery snow' mangokpok

'snow filled with water'  
massalerauvok

'soft snow' akkilokipok

## West Greenlandic - 49 Words

## Eskimo Words for Snow

'sea-ice' siku (in plural = drift ice) 'pack-ice/large expanses of ice in motion' sikursuit, pl. (compacted drift ice/ice field = sikut iqimaniri) 'new ice' sikuliaq/sikurlaaq (solid ice cover = nutaaq.) 'thin ice' sikuaq (in plural = thin ice floes) 'rotten (melting) ice floe' sikurluk 'iceberg' iluliaq (ilulisap itsirnga = part of iceberg below waterline) '(piece of) fresh-water ice' nilak 'lumps of ice stranded on the beach' issinnirit, pl. 'glacier' (also ice forming on objects) sirmiq (sirmirsuaq = Inland Ice) 'snow blown in (e.g. doorway)' sullarniq 'rime/hoar-frost' qaqurnak/kanirniq/kaniq 'frost (on inner surface of e.g. window)' iluq 'icy mist' pujurak/pujuq kanirnartuq 'hail' nataqqurnat 'snow (on ground)' aput (aput sisurtuq = avalanche) 'slush (on ground)' aput masannartuq 'snow in air/falling' qaniit (qanik = snowflake) 'air thick with snow' nittaalaq (nittaallat, pl. = snowflakes; nittaalaq nalliuttigattaartuq = flurries) 'hard grains of snow' nittaalaaqqat, pl. 'feathery clumps of falling snow' qanipalaat 'new fallen snow' apirlaat 'snow crust' pukak 'snowy weather' qannirsuq/nittaatsuq 'snowstorm' pirsuq/pirsirsursuaq 'large ice floe' iluitsuq 'snowdrift' apusiniq 'ice floe' puttaaq 'hummocked ice/pressure ridges in pack ice' maniillat/ingunirit, pl. 'drifting lump of ice' kassuq (dirty lump of glacier-calved ice = anarluk) 'ice-foot (left adhering to shore)' qaannuq 'icicle' kusugaq 'opening in sea ice' imarnirsaq/ammaniq (open water amidst ice = imaviaq) 'lead (navigable fissure) in sea ice' quppaq 'rotten snow/slush on sea' qinuuq 'wet snow falling' imalik 'rotten ice with streams forming' aakkarniq 'snow patch (on mountain, etc.)' aputitaq 'wet snow on top of ice' putsinniq/puvvinniq 'smooth stretch of ice' manirak (stretch of snow-free ice = quasaliaq) 'lump of old ice frozen into new ice' tuaq 'new ice formed in crack in old ice' nutarniq 'bits of floating' naggutit, pl. 'hard snow' mangiggal/mangikaajaaq 'small ice floe (not large enough to stand on)' masaaraq 'ice swelling over partially frozen river, etc. from water seeping up to the surface' siirsinniq 'piled-up ice-floes frozen together' tiggunnirit 'mountain peak sticking up through inland ice' nunataq 'calved ice (from end of glacier)' uukkarnit 'edge of the (sea) ice' sinaaq

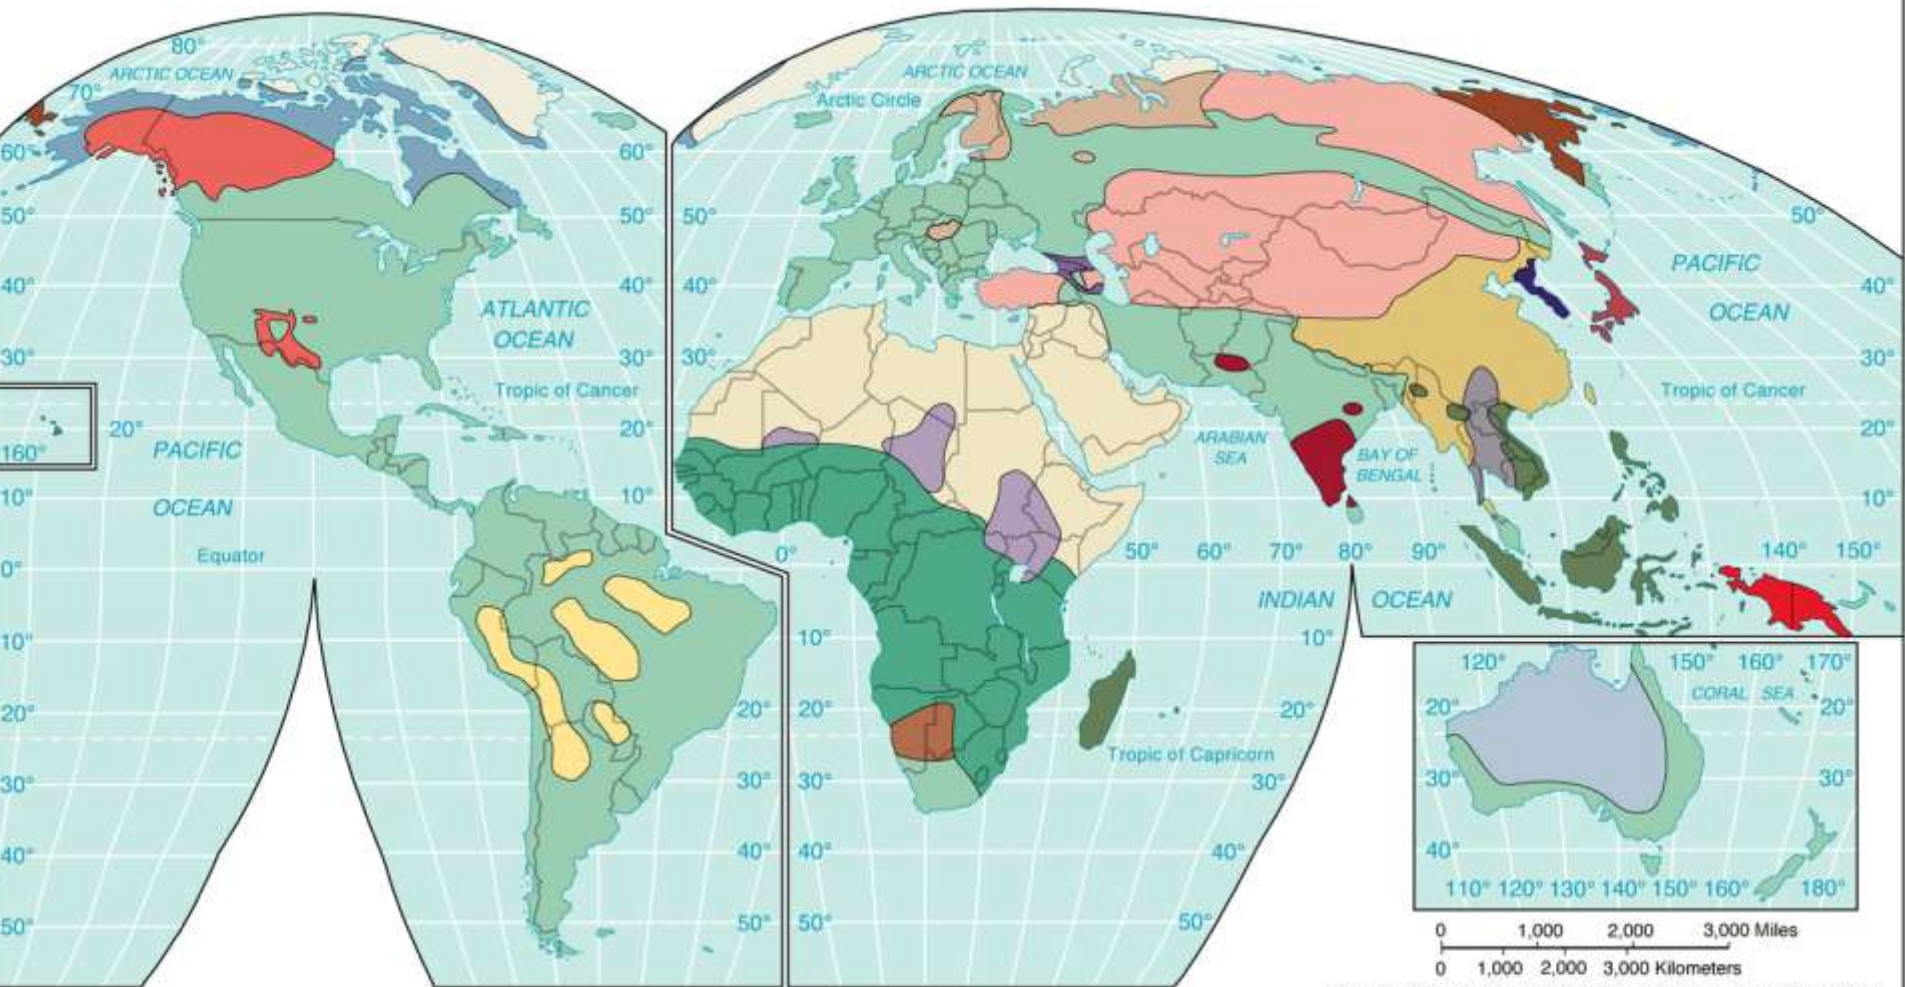

# Language Divisions for English

- Language Families
  - Indo-European
- Language Branches
  - Germanic
- Language Groups
  - West Germanic
- Languages
  - English
- Dialects
  - Northeastern
- Accents
  - Boston (Pak da ka o-fa dere, please!)

MODIFIED GOODE'S HOMOLOGINE EQUAL-AREA PROJECTION

- |  |   |   |   |
|--|---|---|---|
|  Afro-Asiatic          |  Caucasian     |  Japanese    |  Nilo-Saharan  |
|  Altaic                |  Dravidian     |  Khoisan     |  Paleosiberian |
|  Amerind               |  Eskimo-Aleut  |  Korean      |  Sino-Tibetan  |
|  Australian-Aboriginal |  Indo-European |  Na-Dene     |  Tai           |
|  Austronesian          |  Indo-Pacific  |  Niger-Congo |  Uralic        |

- At the **global** scale, we classify languages into language **families**.
  - The languages have a **shared** but fairly distant origin
- Families are broken down into **Sub** families
  - **Division** within a language family
  - Commonalities are more definite & origins are more recent.
  - Consist of individual **languages**
  - Smaller **spatial** extent

# How do Linguists Study Historical Languages?

Backward reconstruction – tracking sound shifts and the hardening of consonants backward to reveal an “original” language.

Can deduce the vocabulary of an extinct language.

Can recreate ancient languages (deep reconstruction)

2/3 of the worlds population speak a language that belongs to the **Indo-European** or Sino-Tibetan language family

2 - 6% of the worlds population speak a language that fits into one of **seven** other language families

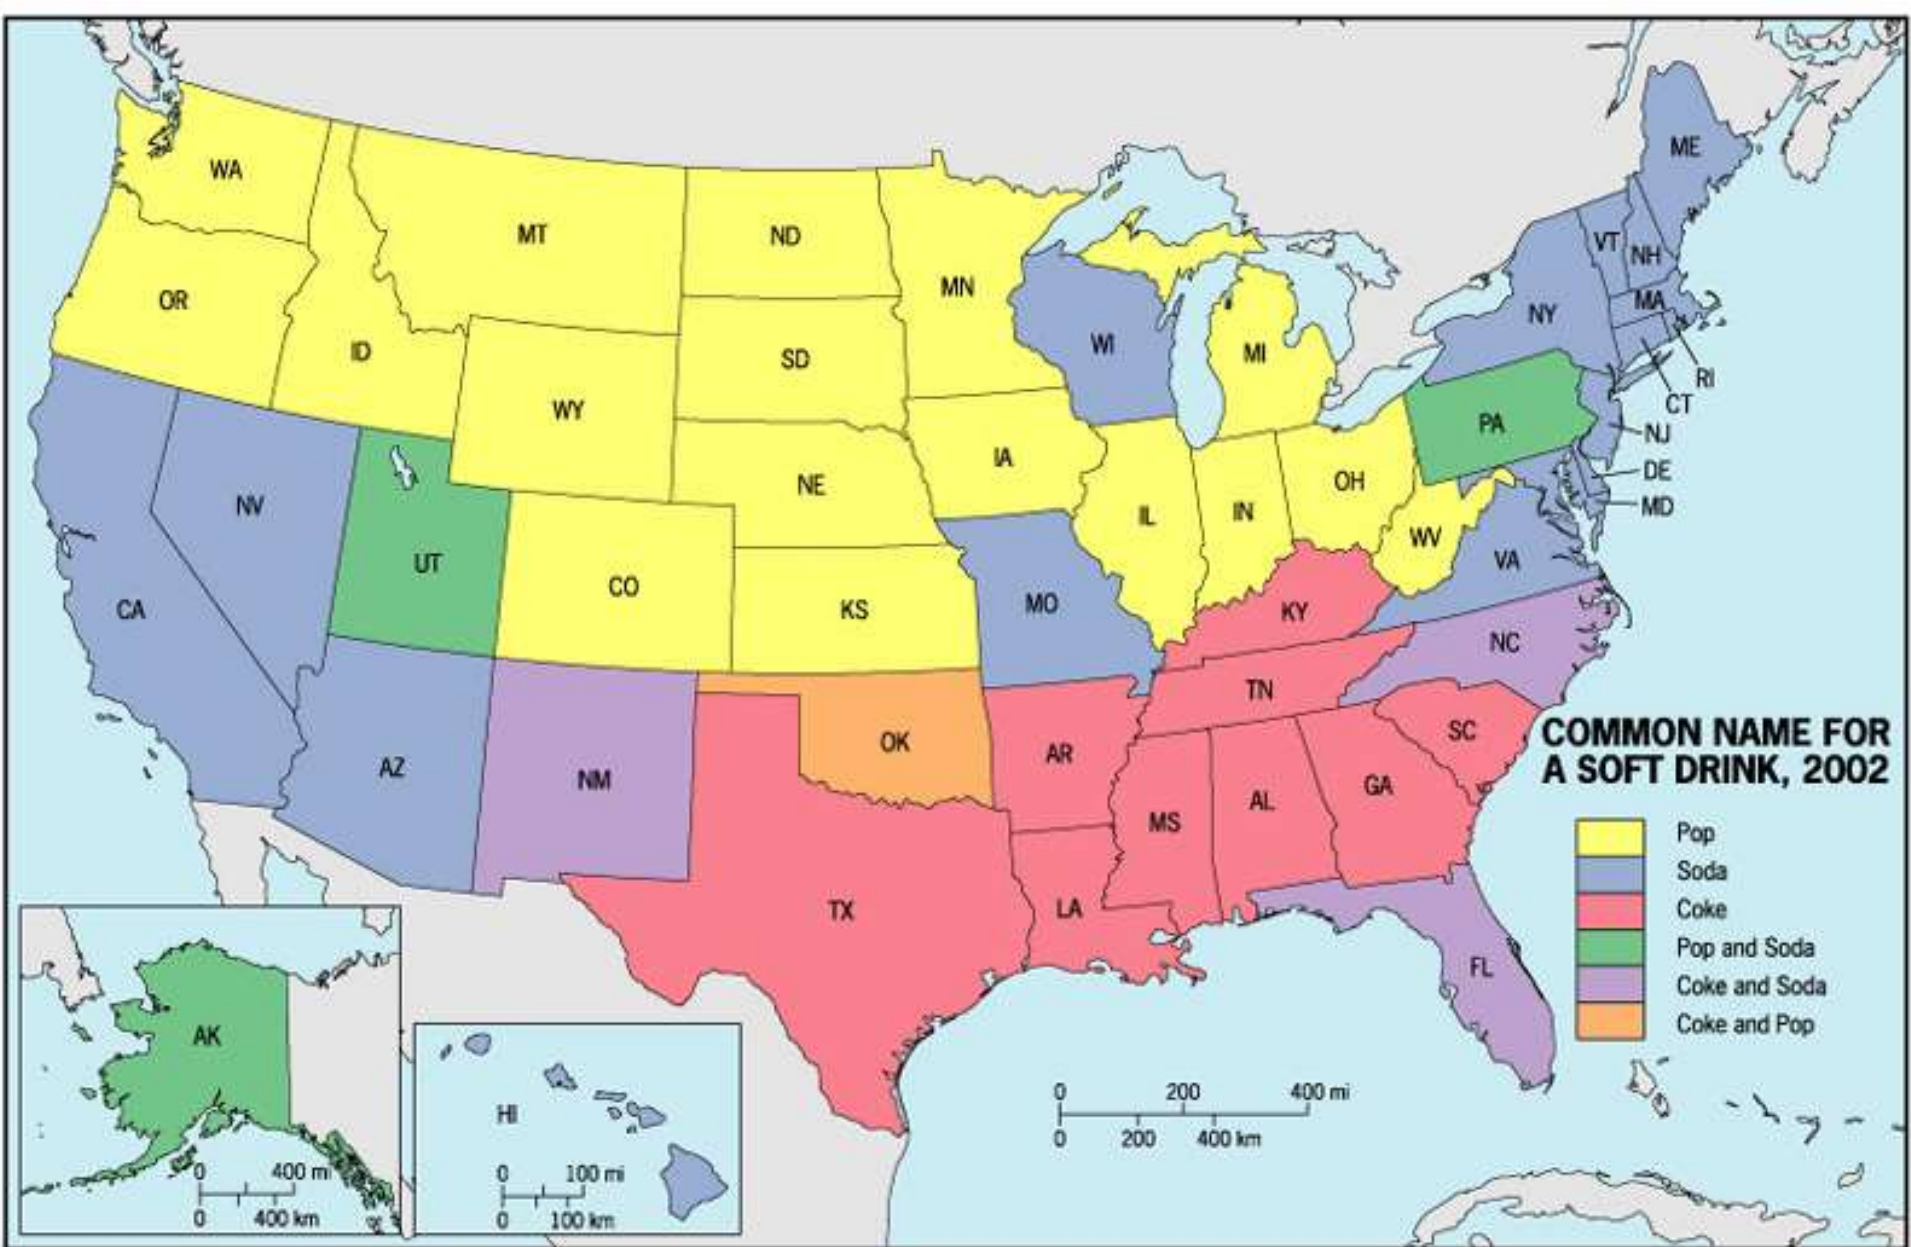

**Remainder** of population speaks a language belonging to one of **100** smaller families

- **Variants** of a standard language along **regional** or ethnic lines
  - Vocabulary, **Syntax**, Pronunciation, Cadence, Pace of speech.
- Linguists think about dialects in terms of **chains**.
  - Distributed across **space**
  - Those **nearest** to each other geographically will be the most similar.
- Can be marked by actual differences in **vocabulary**
  - Linguistic geographers **map** the extent of particular words marking their **limits** as isoglosses.
  - **Isogloss** - a geographic boundary within which a particular linguistic feature occurs.

- Languages subtly gradate one to another. **Dialects** and other regional differences may eventually lead to incomprehensibility - a new language.
- **Migration** and **Isolation** explain how a single language can later become two or more.

- If people with **different** languages have consistent **spatial** interaction, convergence can take place
  - **Two** languages become **one**.
  - I.E. Frankish traders revitalized the ports of the Eastern Mediterranean. Local traders did not speak the language. Frankish was mixed with Italian, Greek, Spanish, & Arabic
- Create special **problems** for researchers because the rules of **reconstruction** may not apply or may be **unreliable**

- Several **theories** hypothesize how, why, & where languages **diffuse** over time.
  - Each **varies** according to the impetus for diffusion
  - One commonality is a **focus** on **Europe**.
  - Conquest Theory
  - Agriculture Theory
  - Dispersal hypothesis
  - Refrew hypothesis

## Conquest Theory

**Early** speakers of Proto-Indo-European **spread** from east to west on horseback, **overpowering** earlier inhabitants and beginning the **diffusion** & differentiation of Indo-European tongues.

- Sound shifts in derivative languages represent a long period of **divergence** in languages as one moves **west** through Europe.

## Agriculture Theory

With increased **food supply** & increased **population**, speakers from the hearth of Indo-European languages

## Dispersal Hypothesis

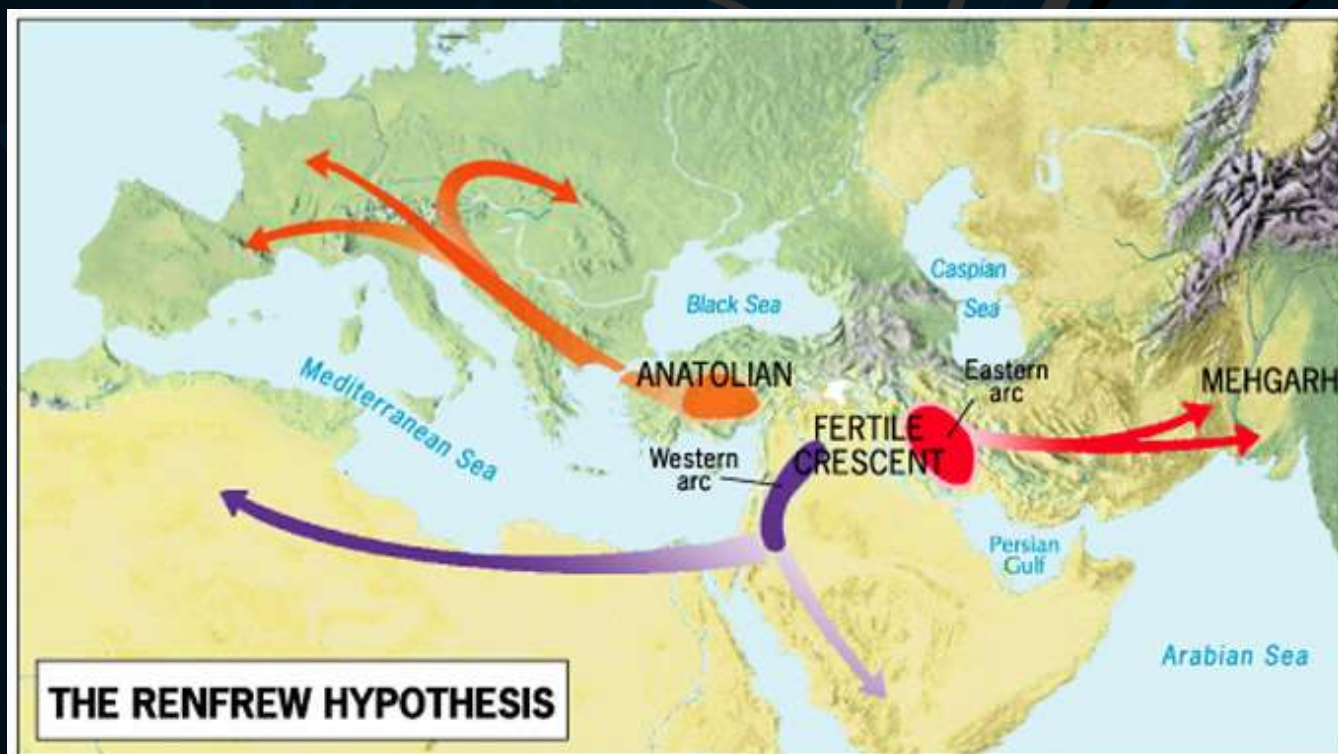

Indo-European languages first **moved** from the hearth **eastward** into present-day Iran & then **around** the Caspian & into **Europe**.

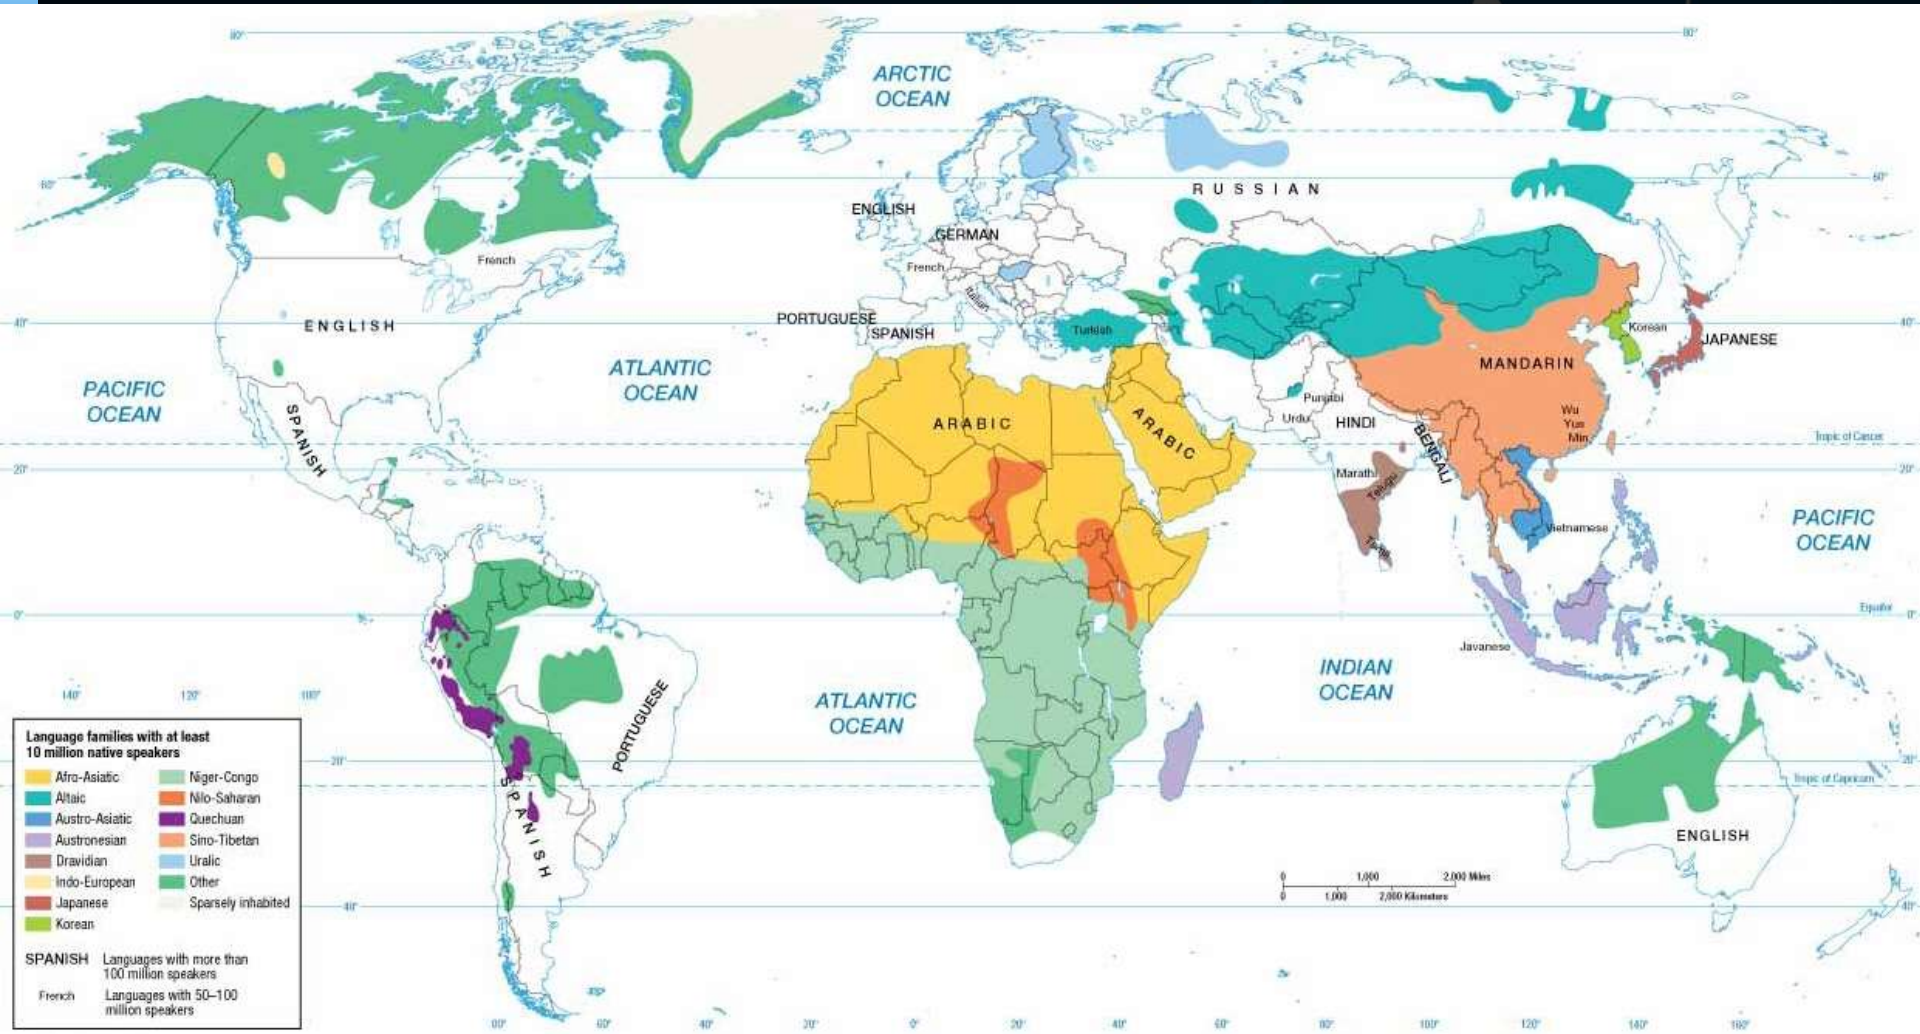

## Proto-Indo-European **began** in the **Fertile** Crescent

- From **Anatolia**, diffused Europe's languages
- From the Western Arc, diffused North **Africa** & Arabia's languages
- From the **Eastern** Arc, diffused SW Asia & S **Asia's** languages

- Two **largest** language families are...
  - Indo-European
    - Predominate language family in **Europe**, South Asia, North America, & Latin America
  - **Sino-Tibetan**
    - Encompasses languages spoken in the People's Republic of **China** & several smaller countries in SE Asia
      - No **single** Chinese language
      - **Mandarin** is the most-used language in the world & the official language of both the PRC & Taiwan. Most **number** of native speakers.

# Sino-Tibetan Language Family (20%)

## Branches:

- **Sinitic**
  - Mandarin (1075), Cantonese (71),
- **Austro-Thai (77)**
  - Thai, Hmong
- **Tibeto-Burman (32)**
  - Burmese (32)

<b>SINO-TIBETAN</b>	<b>INDO-EUROPEAN</b>
1. Mandarin	1. Tajik
2. Northern	
3. Eastern	<b>AUSTRO-ASIATIC</b>
4. Southwestern	1. Mon-Khmer
5. Southern	
6. Wu	<b>ALTAIC</b>
7. Gan	1. Turkic
8. Xiang	2. Kazakh
9. Min	3. Uygur
10. Hakka	4. Kirghiz
11. Yue	5. Mongolian
12. Tibetan	6. Manchu-Tungus
13. Amdo	7. Korean
14. Khams	
15. Dbusgtsang	
16. Kam-Tai	
17. Miao-Yao	

Chinese languages based on 420 one syllable words with meaning inferred from context and tone.

# Germanic Branch - English

Diffused throughout the world by hundreds of years of British colonialism. Brought to New World by British colonies in 1600s. Has become an important global *lingua franca* (a language mutually understood and commonly used in trade by people who have different native languages).

# Which languages share a common ancestor?

## Some Indo-European Shared Words

English	Sanskrit	Greek	Latin	Armenian	Old Irish	Lithuanian
me	mam	eme	me	is	-	mane
father	pitar	pater	pater	hayr	athair	-
mother	matar	mater	mater	mayr	mathair	motina
brother	bhratar	-	frater	elbayr	brathair	brolis
daughter	duhitar	thugater-	-	dustr	-	dukter
cow	gav-	bous	bos	kov	bo	guovs(Latv)
eoh (OE )	asvas	hippos	equus	-	ech	asva, mare
hound	svan	kuon	canis	sun	con	sun
foot	pad	pod-	ped-	otn	-	-
new	navas	ne(w)os	novus	nor	nue	naujas
bears	bharati	pherei	fert	bere	berid	-
two	duva	duo	duo	erku	do	du
three	trayas	treis	tres	erek	tri	trys

Many Indo-European languages have common words for snow, winter, spring; for dog, horse, cow, sheep bear but not camel, lion, elephant, or tiger; for beech, oak, pine, willow, but not palm or banyan tree.

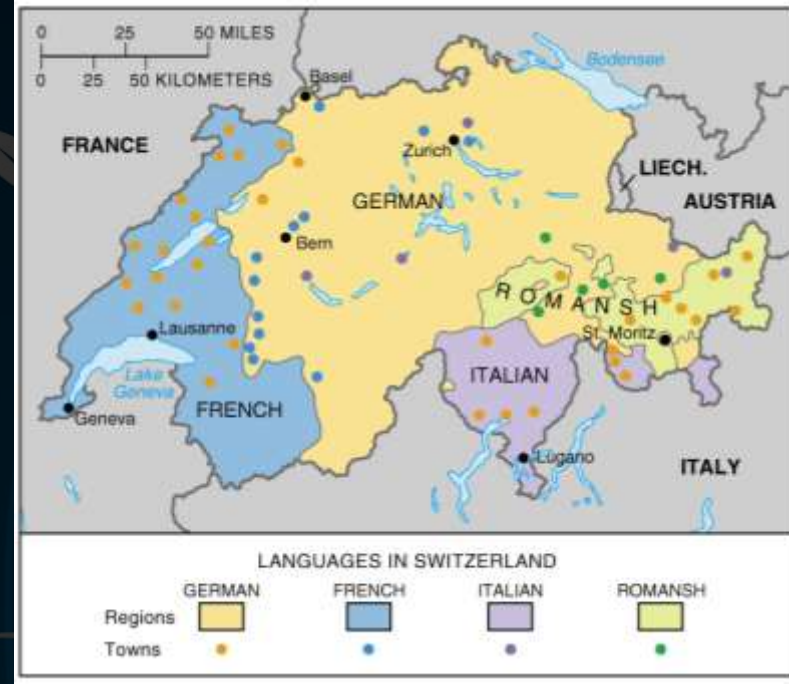

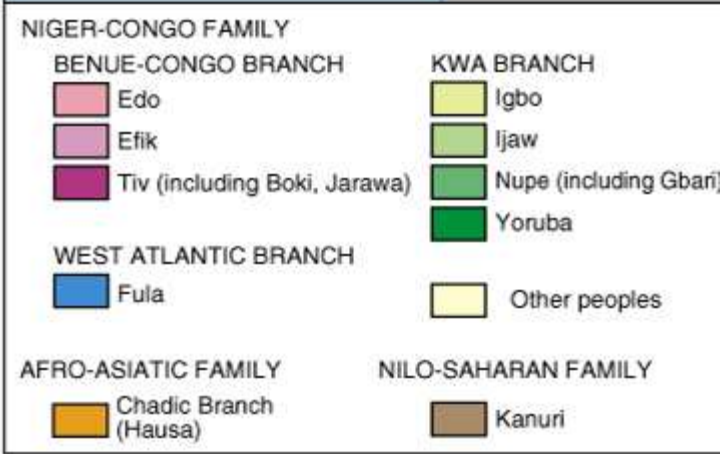

# Division of Language

## Create and Visualize an Acronym

Family  
Branch  
Group  
Language  
Dialect  
Accent

# Language Complexity

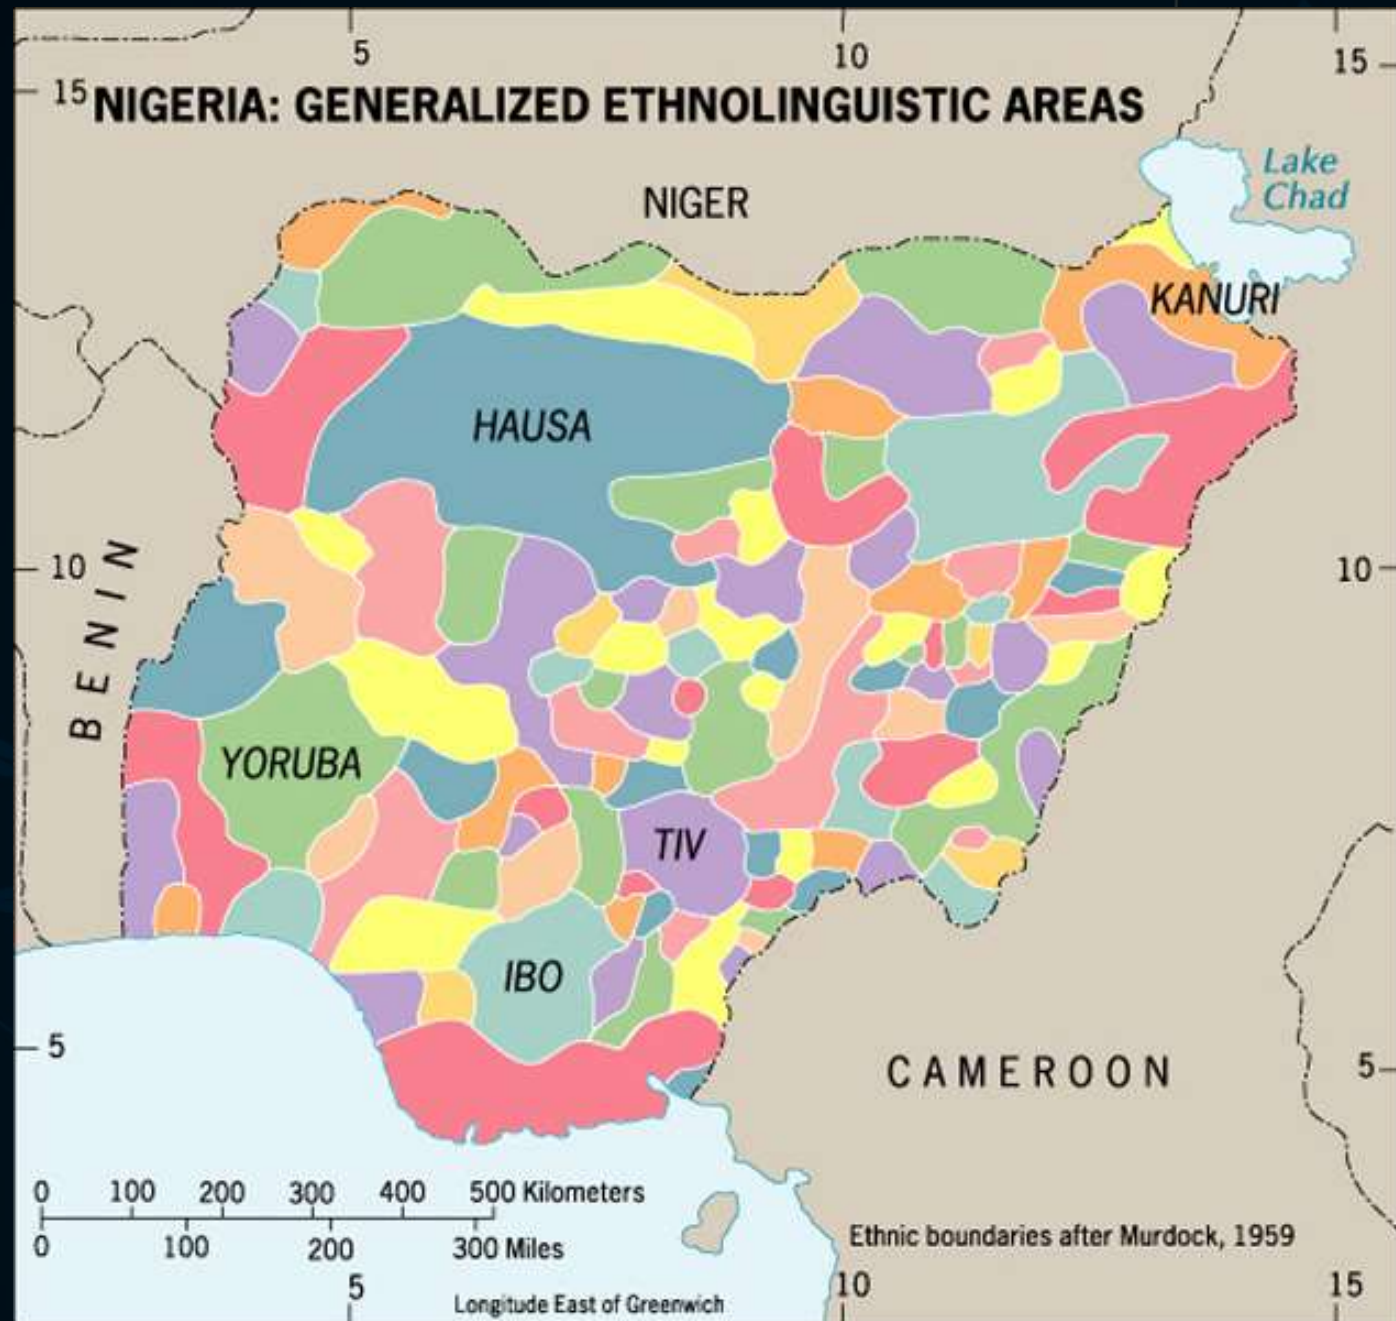

In Nigeria ethnic conflict between southern Ibos and western Yoruba led the government to move the capital to a more neutral central location (Abuja). Many other ethnic battles rage continuously.

In Switzerland, four official languages, a history of peace and tolerance, and a political system that puts power in the hands of local leaders ensure peace.

Nigeria has more than 400 individual languages!

# Nigeria

more than  
400 different  
languages.

# Language and Political Conflict

**Belgium:**

**Flanders (Flemish language)**

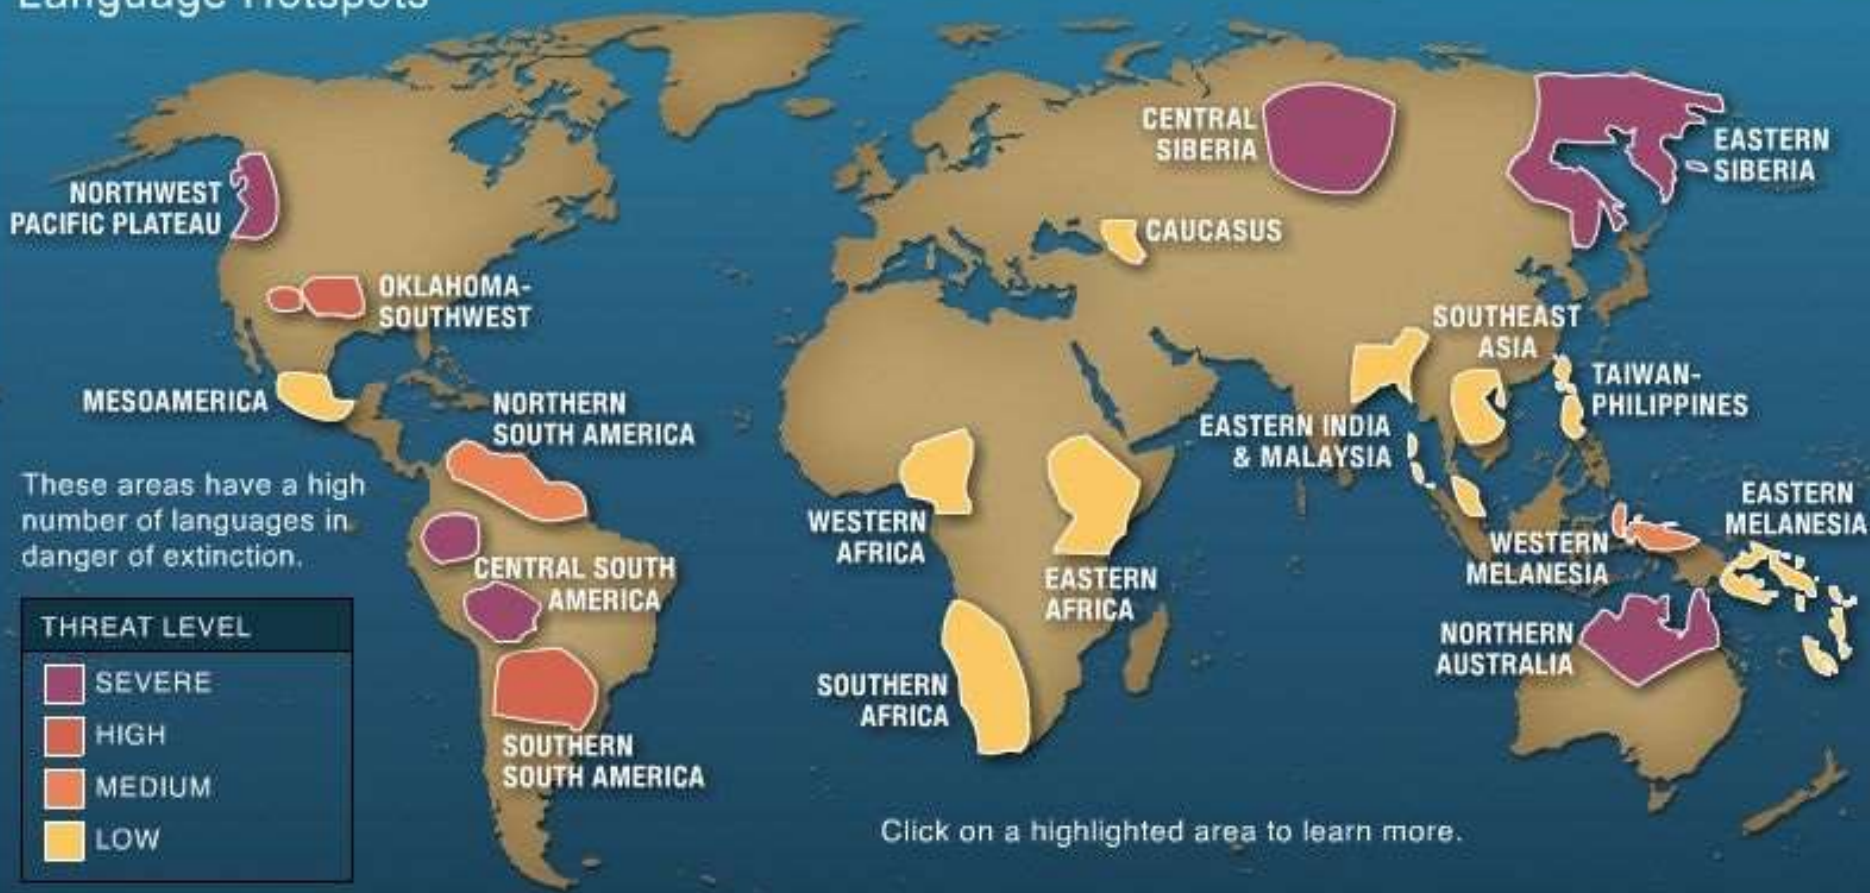

**Wallonia (French language)**

- Language **extinction** creates branches on the language tree with dead ends.
  - Representing a **halt** in interaction between the extinct language & languages that continued
- Linguists predict that at least **half** of the worlds 6,000 or so languages will be **dead** or dying by **2050**.

# Language Hotspots

## 577 Critically Endangered Languages

Source: UNESCO Endangered Language Atlas, 2013

THE LANGUAGE CONSERVANCY

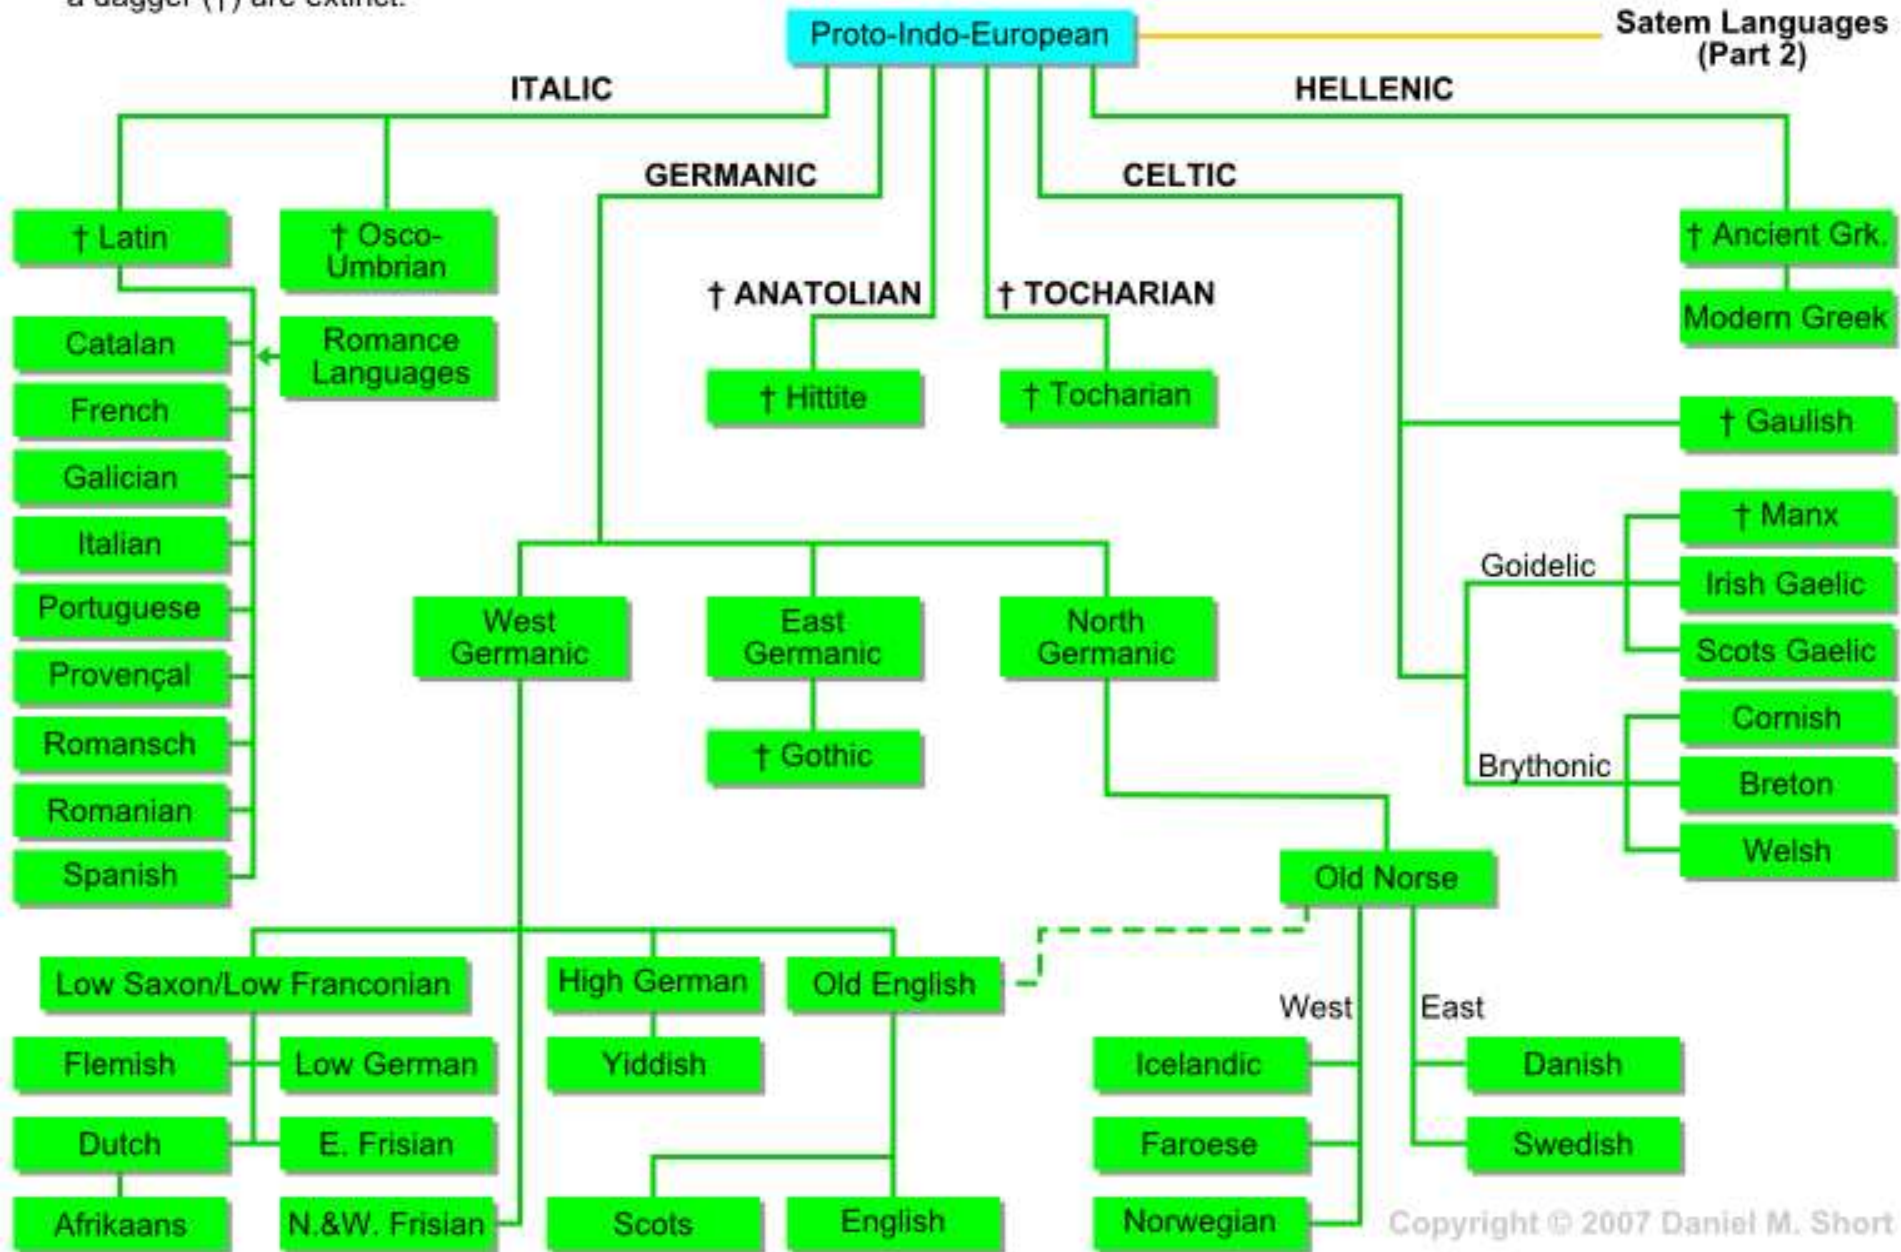

- Languages can become **extinct** when all descendants **perish** or when they choose to **use** another language.
- Does not **occur** overnight
  - Takes place across **generations**
- Presently **473** languages
  - 46 in Africa, 182 in **Americas**, 84 in Asia, 9 in **Europe**, & 152 in Pacific
- Possible to **deduce** a large part of an extinct language
  - **Backward** reconstruction - track sound shifts & hardening of consonants “backwards” **towards** the original language.

# Indo-European Languages

## Part 1: Centum Languages

Languages marked with a dagger (†) are extinct.

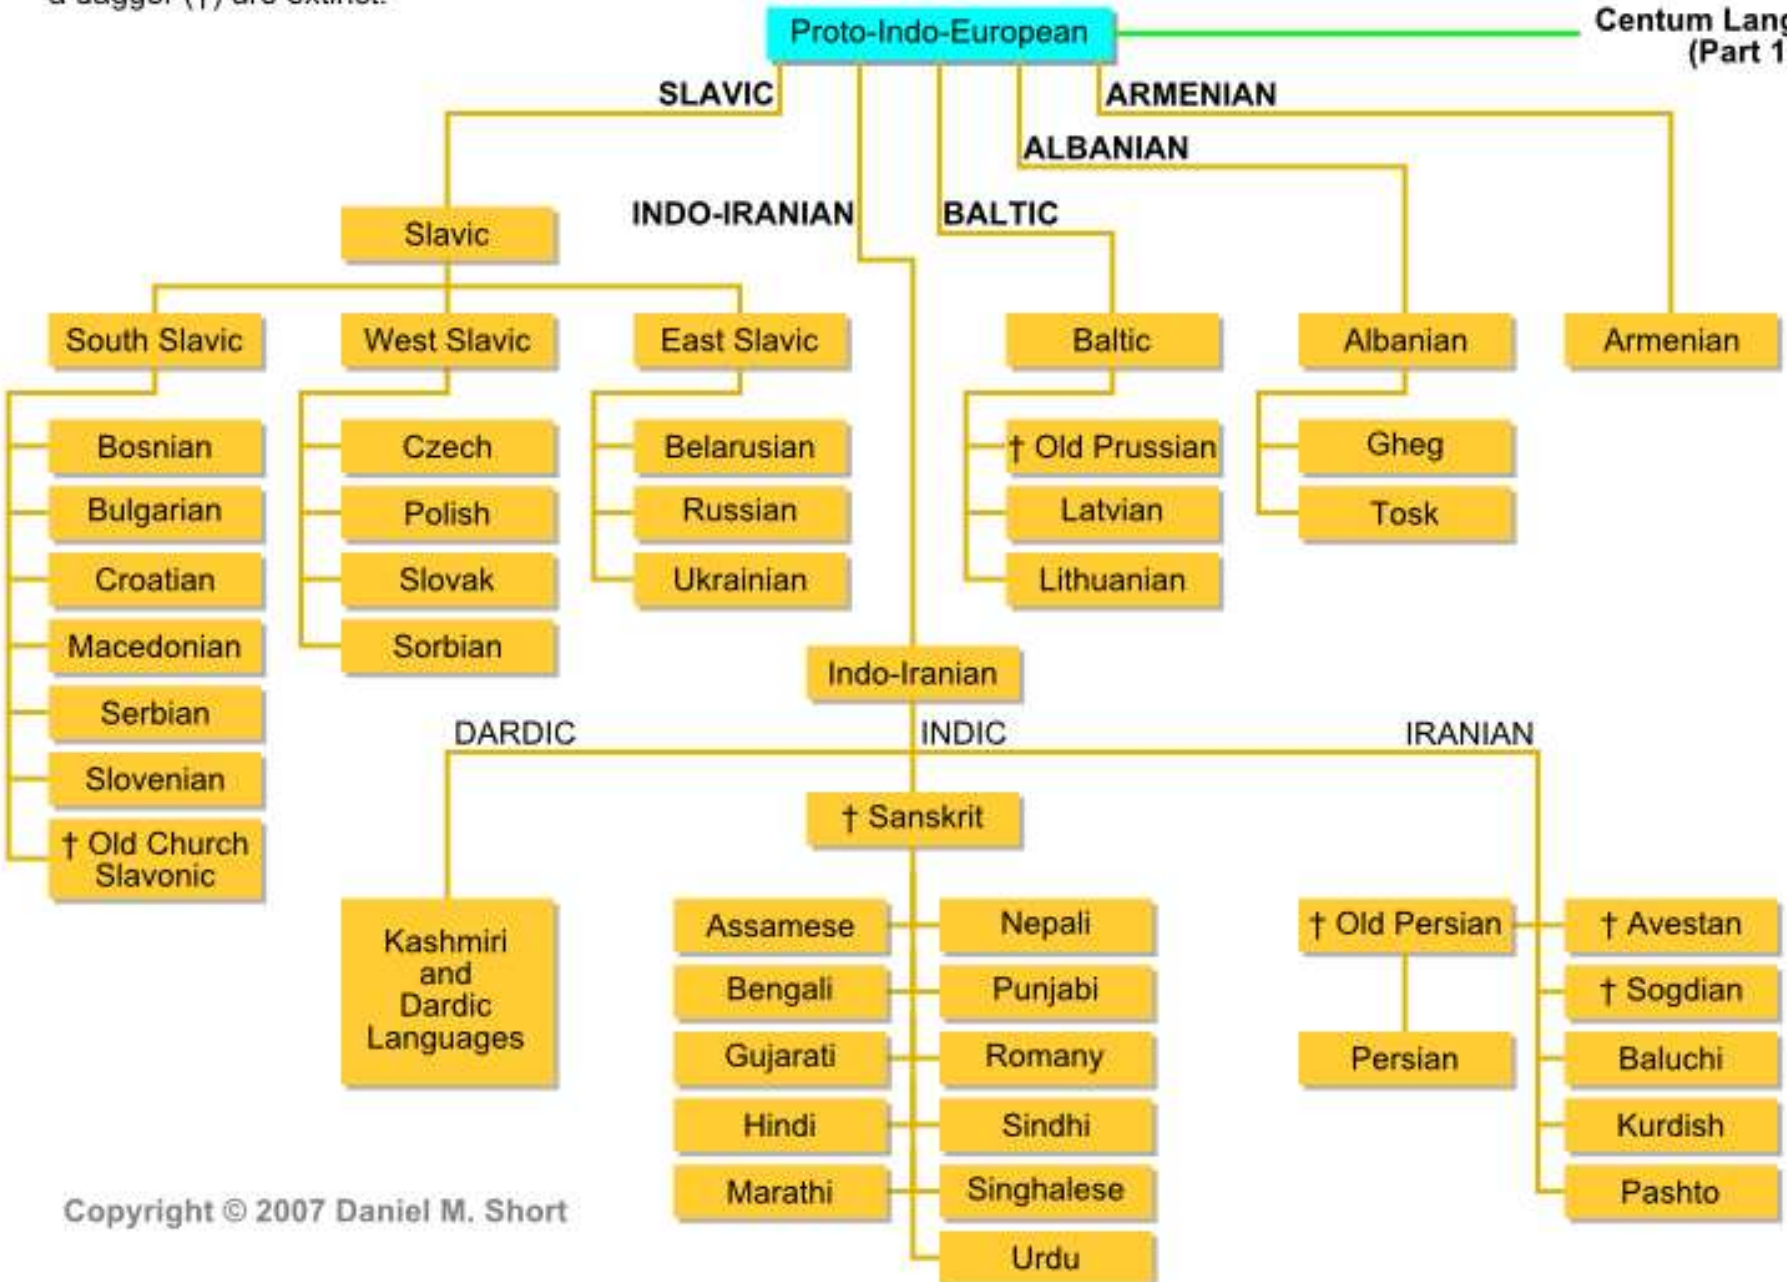

# Indo-European Languages

## Part 2: Satem Languages

Languages marked with a dagger (†) are extinct.

Centum Languages  
(Part 1)

## • Lingua Franca

- A **language** used among speakers of **different** languages for the purpose of **trade** & commerce
- Can be a **single** language, or a **mix** of two or more.
- **English** became lingua franca during colonial period.

## • Pidgin Language

- A language created when people **combine** parts of two or more languages into a **simplified** structure & vocabulary.

## • Creole language

- A **pidgin** language that has developed a more **complex** structure & vocabulary & has become the **native** language of a group of people.

**PIDGIN** - a form of speech that adopts simplified grammar and limited vocabulary from a lingua franca, used for communication between speakers of two different languages.

Examples include **Hawaiin Pidgin** and the **creoles of West Africa** that resulted from the slave trade.

“No eat da candy, Bruddah, it's pilau. Da thing wen fall on da ground.”

ONE FAS LUBE

Give us da food we need fo today an every day.  
Hemmo our shame, an let us go  
Fo all da kine bad stuff we do to you,  
Jalike us guys let da odda guys go awready,  
And we no stay huhu wit dem  
Fo all da kine bad stuff dey do to us.  
No let us get chance fo do bad kine stuff,  
But take us outa dea, so da Bad Guy no can hurt us.  
Cuz you our King.  
You get da real power,  
An you stay awesome foeva.  
Dass it!”

### Matthew 6:9-13 “The Lord’s Prayer”

- Taken from Da Jesus Book, a twelve year effort  
by 6 linguists to translate the New Testament into  
Hawaiian Pidgin, published 2001

**CREOLE** - a language that results from the mixing of a colonizer's language with an indigenous language. Often they are pidgins.

**Can you guess which colonizing language is the base for each of the following creole examples?**

- a. mo pe aste sa banan
- b. de bin alde luk dat big tri
- c. a waka go a wosu
- d. olmaan i kas-im chek
- e. li pote sa bay mo
- f. ja fruher wir bleiben
- g. dis smol swain i bin go fo maket

I am buying the banana  
they always looked for a big tree  
he walked home  
the old man is cashing a check  
he brought that for me  
Yes at first we remained  
this little pig went to market

New Orleans'  
French Quarter

**CREOLE** - a language that results from the mixing of a colonizer's language with an indigenous language. Often they are pidgins

**Can you guess which colonizing language is the base for each of the following creole examples?**

English based Roper River Creole

English based Saran

English based Cape York Creole

French based Guyanais

German based Papua New Guinea Pidgin

German English based Cameroon Pidgin

New Orleans'  
French Quarter

# Key Terms

**DIALECT** - a regional variety of a language distinguished by pronunciation, spelling, and vocabulary.

**Social Dialects** - can denote social class and standing.

**Vernacular Dialects** - the common, slang, speech of a region.

<i>Term</i>	<i>Meaning</i>	<i>Location</i>
Is he fair dinkum?	Is he real or genuine?	Australia
Why I declare!	That's remarkable!	Deep South (U.S.)
Fishin' in the crick	Fishing in the creek	Middle Atlantic States
snap peas	beans eaten in the pod	South (U.S.)
mosquito hawk	dragon fly	South (U.S.)
darning needle	dragon fly	Northern (U.S.)

What is the difference between an accent and dialect?

An *accent* is the way that particular person or group of people *sound*. It's the way somebody pronounces words, the musicality of their speech, etc.

A *dialect* describes both a person's accent *and* the grammatical features of the way that person talks.

# Accents

**ISOLATED LANGUAGE - a language that is not related to any other languages and thus not connected to any language families. Examples include Basque and Icelandic.**

**Basque Spain**

- Cultural geography Yi-Fu Tuan, studied the **role** & function of language in shaping of **places**.
  - By **naming** a place, people in effect call that place into **being**.
- Geographers call place names **toponyms**
  - Imparts a certain **character** on a place
  - **Reflects** the social **processes** in a place
  - Can give use a glimpse of the **history** of a place

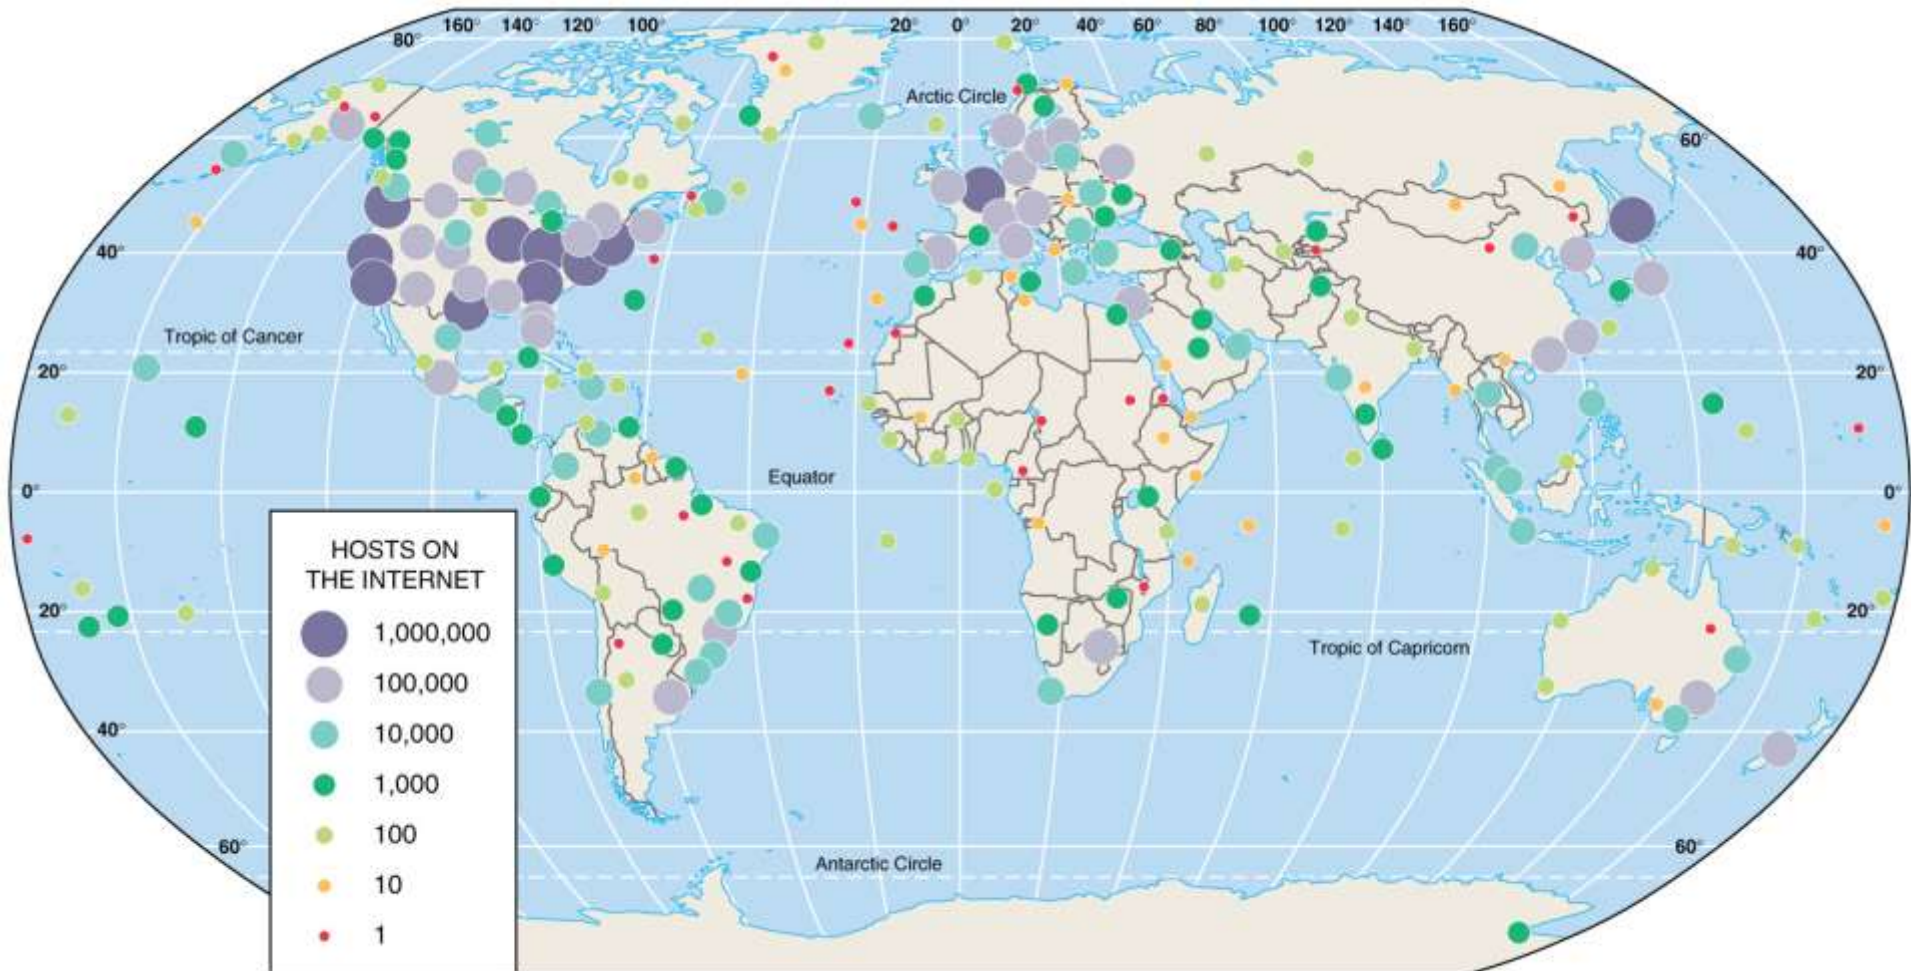

- When people **change** the toponym of a place, they have the power to **wipe** out the **past**
- Major reasons people change toponyms
  - After **decolonization**
  - After a political revolution
  - To **memorialize** people or events
  - To commodify or brand a place.

## Example:

- Small town in Wales
- Feared loss of the Welsh language & despised the role English had played in diminishing the Welsh language
- Wanted to boost their local economy & attract tourists.
- Renamed their town: Llanfairpwllgwyngyllgogerchwyrndrobwlllantysiliogogoch

# Internet Hosts

Copyright © 2005 Pearson Prentice Hall, Inc.

Fig. 5-1-1: A large proportion of the world's internet users and hosts are in the developed countries of North America and western Europe.

# Internet Hosts, by Language

Fig 5-1-1a: The large majority of internet hosts in 1999 used English, Chinese, Japanese, or European languages.
